Introduction

Thank you for considering Big Society Capital. We have the opportunity to employ a talented Senior Legal Counsel to help achieve our social impact investment goals by providing legal advice in relation to investments and corporate, governance and regulatory matters.

We believe this is a fantastic opportunity for someone who is passionate about our mission to improve lives across the UK and who can bring enthusiasm and commitment to the role they will play in delivering that mission.

We have put together this job pack to give you some insight about us and what it is like to work here, as well as some understanding about the role we have on offer and the skills and experience we are looking for.

Who we are

As the UK's leading social impact investor, our role is uniting capital, expertise and ideas to create better lives.

Working with expert partners, we seek to understand people's needs first. Then, using our knowledge and capital, we collaborate and invest with fund managers who also want to create a better, sustainable future.

They, and the social enterprises and charities they invest in, create the impact. Our role is to bring the most relevant experts from our network to the table, generating ideas and connecting capital to where it's most needed.

We want to give more people and communities the chance to have an impact on the issues they care about – from affordable homes, to vulnerable older people and preventing mental ill health. In this way, we create opportunities for investors and enterprises to generate systemic social change, not just for today but for generations to come.

What we do

Our work at Big Society Capital starts with building an understanding of the social issue and the sustainable enterprise solutions that can bring about change. We then design or improve investment routes that can bring together the needs of enterprises and investors. We seed and test new solutions across a wide range of social issues and asset classes and scale up those that work by bringing in more capital alongside us. We believe sustainable solutions can attract the greatest capital and ultimately grow to have the biggest impact on people's lives. You can learn more about our social impact here.

As a wholesale social impact investor, we invest into fund managers who in turn provide capital to enterprises that can bring about social change. So far, in collaboration with other investors, we have committed £2 billion of investment. We also engage with investors, fund managers, charities and social enterprises to make it easier to use social investment. We currently focus on three strategic themes where we believe social investment has a significant role to play in improving people's lives in the UK.

Our themes

Homes

Place

Early action

The challenge:

The UK's housing market crisis is affecting people across the country: there is an inadequate supply of high quality, affordable homes which is leading to rising levels of homelessness, people living in unsuitable accommodation and people unable to access the support they need. This is happening while home ownership is becoming increasingly unaffordable. We believe social investment has great potential to help address these challenges and to contribute to a more inclusive housing market.

There are areas of the UK that have been 'left behind' for many years, and even in relatively prosperous areas, there continues to be high inequality and entrenched poverty. We believe that where a person happens to be born should not affect their life chances or ability to live a happy and fulfilling life. We believe social investment is one tool that can help address these challenges to enable thriving and inclusive places in the long-term.

Vulnerable people across the UK struggle with challenging problems that often are preventable before they escalate. However, many interventions and funding streams are reactive to issues after they have already occurred. We believe social investment has the potential to support interventions that address issues and their causes early on.

Our approach:

Our aim is to test, replicate and scale innovative housing models. We want to attract additional capital to these models to deliver more secure and affordable homes for those in need, including for the most vulnerable people in society.

Our aim is to work with partners at both the local and national level - who bring a range of tools, skills, experiences and resources - so that places can flourish. We believe social investment has a role to play but recognise that creating long-term change will be complex and that we need to take a learning approach to our work.

Our aim is to develop and scale innovative ways to prevent social problems, with a focus on improving the lives of vulnerable children and elderly people. We will do this by focusing on improving outcomes for: children transitioning from the care system, children at risk of obesity, vulnerable elderly people and adults and children at risk of suffering from mental ill health.

Social impact:

Golden Lane Housing and Thera Trust provide specialist accommodation for people with learning disabilities. Having raised £17 million through charity bonds, tenants are able to live more independently in stable and suitable accommodation, with 98% of Golden Lane residents reporting that they feel safe and 95% happy with their home's size and layout.

Local people in Burley Gate created a Community Benefit Society to retain the Post Office and Village Shop that was under threat of closure, raising £57,000 using Social Investment Tax Relief. As the only shop and post office on a 15-mile road, it is a valuable asset to local residents. The new larger store offers a wide range of groceries to meet local needs and promotes local products.

The Reconnections social impact bond aims to tackle loneliness for 3,000 older people in Worcestershire and received investment from Nesta Impact Investments and the Care and Wellbeing Fund. Age UK Herefordshire and Worcestershire deliver support to help older people overcome social barriers and engage with activities to address isolation. So far, 1,244 people have been referred to the programme and there have been significant reductions in loneliness.
